

# Chr. Augustinus Fabrikker

AKTIESELSKAB

## FACT SHEET

Chr. Augustinus Fabrikker is a foundation-owned investment company with extensive interests in the Danish business community. As part of a strategy to be a long-term, committed and value-adding owner, our portfolio comprises considerable ownership in successful and iconic Danish businesses such as Tivoli, Jeudan, Royal Unibrew, Scandinavian Tobacco Group, Fritz Hansen, GUBI and Gyldendal. In 2020 we expanded our investment strategy to include new and ambitious Scale companies founded and anchored in Denmark but with international ambitions such as Podimo, Lunar and Corti. We have allocated DKK 1 billion to our Scale strategy.

Our roots date back more than 270 years where Denmark's first tobacco spinning mill was founded in 1750 in Copenhagen. Today, with a balance of about DKK 35 billion, we are a substantial party in the Danish business society with investments spread across multiple industries.

Our strategy is to actively reinvest a large part of the financial returns in promising Danish companies. It is our belief that our long-term investment profile contributes to creating additional value and stability for the benefit of both Danish businesses and society. Through our ownership we aim to create and maintain jobs as well as competencies in Denmark.

In Chr. Augustinus Fabrikker, we are dedicated and engaged owners but respect the difference between ownership and day-to-day management. We contribute with a loyal dialogue and commitment but refrain from interfering in management of the businesses. Chr. Augustinus Fabrikker is a subsidiary of Augustinus Fonden, which is amongst Denmark's largest cultural foundations. At Chr. Augustinus Fabrikker it is our priority to secure a return which facilitates Augustinus Fonden's significant philanthropic activities within art and culture.
